## **MEDICAL SOURCE STATEMENT**

From	m:		_		
Re:			_(Name of Patient)		
			_(Social Security No	<b>)</b> .)	
Plea trea	ase ans <i>tment</i>	wer the following questions conc notes, radiologist reports, labora	erning your patient's tory and test results a	imp as ap	airments. <i>Attach all relevant</i> ppropriate.
1.	Freq	uency and length of contact:			
2.	Does	s your patient meet the American	College of Rheumato	ology Yes	v criteria for fibromyalgia? □ No
3.	List	any other diagnosed impairments	:		
4.	Prog	nosis:			
5.	Have mon	e your patient's impairments laste ths?	d or can they be expo	ected Yes	to last at least twelve
6.		tify the <i>clinical findings</i> , laborate airments:	ory and test results th	at sh	ow your patient's medical
7.	Iden	tify all of your patient's symptom	s:		
		Multiple tender points			Numbness and tingling
		Nonrestorative sleep			Sicca symptoms
		Chronic fatigue			Raynaud's Phenomenon
		Morning stiffness			Dysmenorrhea
		Muscle weakness			Breathlessness
		Subjective swelling			Anxiety
		Irritable Bowel Syndrome			Panic attacks
		Frequent, severe headaches			Depression
		Female Urethral Syndrome			Mitral Valve Prolapse
		Premenstrual Syndrome (PMS)			Hypothyroidism
		Vestibular dysfunction			Carpal Tunnel Syndrome
		Temporomandibular Joint Dysf	unction (TMJ)		Chronic Fatigue Syndrome
8.	Do e	motional factors contribute to the	severity of your pati	ient's	s symptoms and functional

8. Do emotional factors contribute to the severity of your patient's symptoms and functions limitations?

- 9. If your patient has pain:
  - a. Identify the location of pain including, where appropriate, an indication of right or left side or bilateral areas affected:

	RIGHT	LEFT	BILATERAL
Lumbosacral spine			
Cervical spine			
<ul> <li>☐ Thoracic spine</li> <li>☐ Chest</li> </ul>			
□ Chest □ Shoulders			
$\square$ Arms			
□ Hands/fingers	Ē	Ē	
□ Hips			
□ Legs			
□ Knees/ankles/feet			

b. Describe the nature, frequency, and severity of your patient's pain:

c. Identify any factors that precipitate pain:

Changing weather	Fatigue	Moven	nent	t/Overuse	Cold
	Hormonal				

- 10. Identify the side effects of any medication that may have implications for working, e.g., dizziness, drowsiness, stomach upset, etc.:
- 11. As a result of your patient's impairments, estimate your patient's functional limitations if your patient were placed in a *competitive work situation*.

a. How many city blocks can your patient walk without rest or severe pain?

b. Please circle the hours and/or minutes that your patient can sit *at one time*, e.g., before needing to get up, etc.

 
 Sit:
 0 5 10 15 20 30 45 Minutes
 1 2 More than 2 Hours

c. Please circle the hours and/or minutes that your patient can stand *at one time*, e.g., before needing to sit down, walk around, etc.

 
 Stand:
 0 5 10 15 20 30 45 Minutes
 1 2 More than 2 Hours

d. Please indicate how long your patient can sit and stand/walk *total in an 8-hour working day* (with normal breaks):

Sit	Stand/walk	
		less than 2 hours
		about 2 hours
		about 4 hours
		at least 6 hours

e. Does your patient need a job that permits shifting positions *at will* from sitting, standing or walking?

- f. Does your patient need to include periods of walking around during an 8-hour working day?
  - 1). If yes, approximately how *often* must your patient walk?

	1	5	10	15	20	30	45	60	90
Minutes									

2). How *long* must your patient walk each time?

- g. While engaging in occasional standing/walking, must your patient use a cane or other assistive device?
- h. Will your patient sometimes need to take unscheduled breaks during a working day?  $\Box$  Yes  $\Box$  No
  - If yes, 1) how *often* do you think this will happen? 2) how *long* (on average) will your patient have to rest before returning to work? 3) on such a break, will your patient need to lie down or sit quietly?
- i. With prolonged sitting, should your patient's leg(s) be elevated?  $\Box$  Yes  $\Box$  No

If yes, 1) how <i>high</i> should the leg(s) be elevated?	
2) if your patient had a sedentary job, <i>what</i>	
<i>percentage of time</i> during an 8-hour	
working day should the leg(s) be elevated?	%

For this and other questions on this form, "rarely" means 1% to 5% of an 8-hour working day; "occasionally" means 6% to 33% of an 8-hour working day; "frequently" means 34% to 66% of an 8-hour working day.

j. How many pounds can your patient lift and carry in a competitive work situation?

	Never	Rarely	Occasionally	Frequently
Less than 10 lbs.				Î Î
10 lbs.				
20 lbs.				
50 lbs.				

k. How often can your patient perform the following activities?

	Never	Rarely	Occasionally	Frequently
Twist				
Stoop (bend)				
Crouch/ squat				
Climb ladders				
Climb stairs				

1. How often can your patient perform the following activities?

onen san jour punent periorin die rene (ing aen ines)										
	Never	Rarely	Occasionally	Frequently						
Look down (sustained		-	-							
flexion of neck)										
Turn head right or left										
Look up										
Hold head in static position										

m. If your patient has significant limitations with reaching, handling or fingering, please indicate the percentage of time during an 8-hour working day that your patient can use hands/fingers/arms for the following activities:

	HANDS: Grasp, Turn <u>Twist Objects</u>	FINGERS: Fine <u>Manipulations</u>	ARMS: Reaching <u>In Front of Body</u>	ARMS: Reaching <u>Overhead</u>
Right:	%	%	0⁄0	%
Left:	%	%	%	%

n. How much is your patient likely to be "*off task*"? That is, what percentage of a typical workday would your patient's symptoms likely be severe enough to interfere with *attention and concentration* needed to perform even simple work tasks?

		0%		5%		10%		15%		20%		25% or more
0.	To w	hat de	gree o	can you	ur pat	ient tol	erate v	vork str	ess?			
		-				stress" ess - no		work		-		w stress work gh stress work
p.	Are y	our pa	atient	's impa	airme	nts like	ly to p	roduce	"good	l days" Yes	and '	ʻbad days"? ] No
	If yes, assuming your patient was trying to work full time please estimate, on the average, how many days per month your patient is likely to be absent from work as a result of the impairments or treatment:											
	<ul> <li>Never</li> <li>About one day per month</li> <li>About two days per month</li> <li>About two days per month</li> <li>More than four days per month</li> </ul>							onth				
Are your patient's impairments (physical impairments plus any emotional impairments) as demonstrated by signs, clinical findings and laboratory or test results <i>reasonably consistent</i> with the symptoms and functional limitations described above in this evaluation? $\Box$ Yes $\Box$ No												
If 1	If no, please explain:											
	Please attach an additional page to describe any other limitations that would affect your patient's ability to work at a regular job on a sustained basis.
