Re:		(Name of Patient)					
	(Social Security No.)						
		wer the following questions conductes, radiologist reports, laborate		ng your patient's impairments. Attach relevant nd test results as appropriate.			
1.	Frequ	uency and length of contact:					
2.	Diag	noses:					
3.	3. Prognosis:						
4.	Identify your patient's symptoms:						
		Chronic diarrhea		Anal fissures			
		Bloody diarrhea		Nausea			
		Abdominal pain and cramping		Peripheral arthritis			
		Fever		Kidney problems			
		Weight loss		Malaise			
		Loss of appetite		Fatigue			
		Bowel obstruction		Mucus in stool			
		Vomiting		Ineffective straining at stool			
		Abdominal distention		(rectal tenesmus)			
		Fistulas		Sweatiness			
	Othe	r:					
5.	•	ur patient has pain, characterize the severity of your patient's pain:	ne na	ture, location, frequency, precipitating factors,			
6.	If aspects of your patient's impairment are episodic, describe the nature, precipitating factors, severity, frequency and duration of the episodic aspects:						
7.	Ident	rify the clinical findings and objec	tive	signs:			

		nent and response including any side effects of medication that may or working, e.g., drowsiness, dizziness, nausea, etc.:					
	ave your patient's onths?	impairments lasted or can they be expected to last at least twelve Yes No					
	o emotional facto nitations?	rs contribute to the severity of your patient's symptoms and functional \(\subseteq \text{Yes} \square \square \text{No} \)					
Ide	lentify any psychological conditions affecting your patient's physical condition:						
	☐ Pyscholo	on					
	- 1	patient's impairments, estimate your patient's functional limitations if aced in a <i>competitive work situation</i> :					
•	How many city	blocks can your patient walk?					
	Please circle the needing to get u	hours and/or minutes that your patient can sit at one time, e.g., before p, etc.					
	Sit:	<u>0 5 10 15 20 30 45</u> Minutes <u>1 2 More than 2</u> Hours					
		hours and/or minutes that your patient can stand <i>at one time</i> , e.g., o sit down, walk around, etc.					
	Stand:	0 5 10 15 20 30 45 Minutes 1 2 More than 2 Hours					
d.	. Please indicate how long your patient can sit and stand/walk <i>total in an 8-hour working day</i> (with normal breaks):						
		Sit Stand/walk less than 2 hours about 2 hours about 4 hours at least 6 hours					
e.	Does your paties or walking?	nt need a job that permits shifting positions <i>at will</i> from sitting, standing \square Yes \square No					
f.	Does your patie	nt need a job that permits ready access to a restroom? Yes No					
g.	Will your patien working day?	t sometimes need to take unscheduled restroom breaks during a Yes No					
	Ifves 1) h	ow <i>often</i> do you think this will happen?					

	2) how <i>long</i> will your patient be away from the work station for an average unscheduled restroom break?						
	3) how much advance notice does your patient have of the need for a restroom break?						
h.	Will your patient also sometimes need to lie down or rest at unpredictable intervals during a working day?						
	If yes, 1) how <i>often</i> do you think this will happen?						
	2) how <i>long</i> (on have to rest be			nt			
	nd other questions on this form, "i to 33% of an 8-hour working day;						
i.	How many pounds can your	patient lift a	and carry in a	a competitive wo	ork situation?		
		Never	Rarely	Occasionally	Frequently		
	Less than 10 lbs. 10 lbs.						
	20 lbs. 50 lbs.						
					Ш		
j.	How often can your patient p		_				
	Twist Stoop (bend) Crouch/ squat Climb ladders Climb stairs	Never	Rarely	Occasionally	Frequently □ □ □ □ □ □		
k.	k. How much is your patient likely to be "off task"? That is, what percentage of a typical workday would your patient's symptoms likely be severe enough to interfere with attention and concentration needed to perform even simple work tasks?						
	□ 0% □ 5% □	10% □	15% □	20% 🗆 2	5% or more		
1.	To what degree can your pati	ent tolerate	work stress?				
	 ☐ Incapable of even "low stress" work ☐ Capable of low stress work ☐ Capable of high stress work 						
	Please explain the reasons for your conclusion:						
m.	m. Are your patient's impairments likely to produce "good days" and "bad days"? ☐ Yes ☐ No						
	If yes, assuming your patient was trying to work full time, please estimate, on the average, how many days per month your patient is likely to be absent from work as a result of the impairments or treatment:						
	□ Never□ About one day per m□ About two days per m	nonth month	☐ About for	ree days per mon ur days per mon n four days per n	th		

13. Are your patient's impairments (physical impairments plus any emotional impairments)

		ings and laboratory or test results <i>reasonably</i> etional limitations described above in this	□ Yes		
	If no, please explain:				
14.	Please describe any other limitations (such as limitations using hands, arms, fingers, psychological limitations, limited vision, difficulty hearing, need to avoid temperature extremes, wetness, humidity, noise, dust, fumes, gases or hazards, etc.) that would affect your patient's ability to work at a regular job on a sustained basis:
